BOARD OF ADJUSTMENT APPEAL.

4-A-1.

The City Clerk read In the matter of Application of William and Georgie White, Applicants, to permit in a 2nd Residence District parking of two fuel trucks and one service van on premises 85-87 Osborne Terrace.

(C. E. Davis, Albert Knight, Alwyn Hayes, James F. Nance, James McIntyer, Robert L. Kerr, Appellants)

The Board of Adjustment at its regular meeting held November 8, 1984, approved the application by 7 Ayes, 0 Nays, 2 Not Voting.

An appeal in this matter was filed in the Office on the City Clerk on November 20, 1984, by C. E. Davis, Albert Knight, Alwyn Hayes, James F. Nance, James McIntyer, Robert L. Kerr.

The transcript in connection with this matter was received December 31, 1984 and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On January 3, 1985, the City Clerk notified the applicant, the appellants and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting January 16, 1985, at 8:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark.

President Grant stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the Matter of Application of William and Georgie White, Applicants, to permit in a 2nd Residence District parking of two fuel trucks and one service van on premises 85-87 Osborne Terrace. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and the place for the appeal to commence.

January 16, 1985

MS. LESLIE DAVIS, 84 VAN NESS PLACE, NEWARK, NEW JERSEY.

MR. EDWARD KERR, 96 OSBORNE TERRACE, NEWARK, NEW JERSEY.

MR. JAMES McINTYER, 6 MILLINGTON AVENUE, NEWARK, NEW JERSEY.

MR. ELLIOT MOORMAN, ATTORNEY REPRESENTING MR. JAMES NANCE, 89 OSBORNE TERRACE, NEWARK, NEW JERSEY.

All of the above individuals addressed the Municipal Council and requested that this variance be denied stating that there is the possibility of decrease in property values, deterioration of the neighborhood, pollution from the trucks and residents in the area who are unable to relocate. Several citizens expressed the opinion that the applicants had enough time to look for an area where they could relocate these trucks.

RABBI WILLIAM WHITE, 85-87 OSBORNE TERRACE, NEWARK, NEW JERSEY.

MS. GEORGIE WHITE, 85-87 OSBORNE TERRACE, NEWARK, NEW JERSEY.

The above individuals, applicants in this matter, addressed the Municipal Council and stated they had been at this address for 15 years conducting this business. They expressed concern that their neighbors now found it necessary to oppose this variance. They cited they had always maintained their property and had worked to keep the neighborhood in good condition. Rabbi White explained he had at one time parked his trucks in another location but they had been vandalized. He noted the variance was for 3 years only to enable them to relocate.

Councilman Payne read the following statement:

"This is an appeal from a decision of the Board of Adjustment which involves premises at 85-87 Osborne Terrace, which is zoned as a Second Residence District. The lot is located on the westside of Osborne Terrace, between West Runyon Street and Clinton Avenue. It's 75 feet by 195 feet in size and on part of the lot is located a two family dwelling. The area within a two hundred feet radius is composed of similar dwellings.

The applicants applied to the Board of Adjustment for a variance granting permission to park two fuel trucks and a commercial van in the backyard of the home - business residence at 85 Osborne Terrace. The variance is required because the garaging, storing or parking of commercial vehicles on any property within the Second Residence District is prohibited with the exception of parking for pick ups, delivery or service.

On November 8, 1984, the Board of Adjustment determined that the variance could be granted without substantial detriment to the public good and without substantially impairing the intent and purpose of the Zone Plan and the Zoning Ordinances of the City of Newark. The variance was granted with two conditions: (1) that the variance is for the parking of two fuel trucks and one service van only; (2) that the variance is for a 3 year period. The Board of Adjustment in support of its decision found (1) the business has been established there for fifteen years without any complaints; (2) the property is kept well with no noise; (3) the granting of the variance will not decrease the property value in the area.

Thereafter an appeal was taken to this body from the Board of Adjustment decision. The Municipal Council is empowered to hear appeals concerning a variance granted pursuant to N.J.S.A. 40:55D-70(d), known as "d" variances. That section of the Municipal Land Use Law concerns variances granted "in particular cases and for special reasons...to allow departure from...[the zoning ordinance] to permit a use in a district restricted against such structure or use".

The standard of review by this Body is no longer clear due to recent legislation which amended the Municipal Land Use Law, effective July 1, 1984, Chapter 20 of the Laws of N. J. 1984. Prior to the amendment the Municipal Council conducted a de novo review of the record that was established before the Board of Adjustment

January 16, 1985

and reached its own decision which was subject only to the requirement that the finds and conclusion be supported by the record. Now, however, with the amendment to the Municipal Land Use Law, it is no longer clear whether there is a de novo review or whether this body is limited to determining whether the Board of Adjustment's action was so arbitrary and capricious as to amount to an abuse of discretion. Therefore, this governing body will apply both standards of review.

The testimony before the Board indicates that the applicants have been operating the business at 85 Osborne Terrace for the last fifteen years and with at least one oil truck since 1972. The testimony also indicated that the applicant's property is well kept, that the trucks are not left on the street and are always parked on the premises at night. The trucks are never taken out before 8:30 to 9:00 a.m. and are back in the yard around 4:30 P.M. Further, it was testified that the trucks are never left at the premises with oil in the tanks and that tanks of the fuel trucks are cleaned in Elizabeth, New Jersey.

Further, finds on the record below revealed that the applicants had sought other locations to park the trucks and have in fact for a period of time parked the trucks on a lot owned by them on South Eleventh Street and Fourteenth Avenue. There were four objectors who testified, James Nance, Edward Kerr, James McIntyer and Robert Kerr. The objectors were concerned with the deterioration of the neighborhood as well as the property value of the houses in the area. The objectors also indicated they were aware the applicants have parked the trucks at the premises since 1972.

The Municipal Land Use Law requires that an applicant for a "d" variance show:

- (1) That there are special reasons for granting the variance; and
- (2) That the relief "can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the zone plan and zoning ordinance".

The applicant may have shown that parking the trucks has not and will not cause a detriment to the public good but I seriously question whether this type of operation in the Second Residence District impairs the intent and purpose of the zone plan and zoning ordinances of the City of Newark. I further question the Board's decision in determining that "special reasons" have been shown for granting a variance. I submit, the existence of the operation for fifteen years does not create a special reason. I do recognize that the Board of Adjustment did attempt to compromise in an effort to resolve this matter. The Board allowed the variance, but for a three year period of time to allow the applicants an opportunity to find another location. I find from the testimony that the applicants have in the past sought to find a location where they could park the trucks. I also find that three years granted is too extensive a period of time to finally resolve this matter. In addition, I question if special reasons were shown in this case which would permit the granting of the variance. However, rather than to challenge the Board's decision at this time, I will recommend that the variance be allowed, however for one year only with a 3 month option making a total of 15 months. This will allow the applicants the opportunity to relocate. I, therefore, move that the Municipal Council adopt the facts I have recited and the reasoning I have set forth and sustain the decision of the Board of Adjustment granting the variance with the following conditions:

1. The variance is for one year with a 3 month option making a total of 15 months.
2. The variance is for the parking of two fuel trucks and one service van only seconded by Councilman Carrino and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

Resolution accepting bid of William Sitar, Jr., for purchase of City-owned property known as 64-88 Adams Street, Block 1990, Lot 23, Newark; pursuant to N.J.S.A. 40A:12-13(a); based upon Resolution 7-R-bd, December 5, 1984. (Purchase Price-\$176,251.; Capital Investment-\$178,054.; Assessed Valuation: Land/\$24,000.; Building/\$74,300.; Minimum Offer Approved by Real Estate Commission on October 11, 1984-\$120,000.)
(Copy of resolution and correspondence submitted to each Member of the Council)

Councilman Martinez stated the following: " This has gone beyond two meetings. I move to reject. I would like to read a statement into the record. I feel that the interest of the public can best be served by rejecting both bids on this public auction. This matter should serve as a guide to all future public auctions by this Body and the Office of Real Property. This particular parcel known as 64-88 Adams Street, Block 1990, Lot 23 was approved by sale by the Real Estate Commission on October 11, 1984. By State Statute being that two meetings have ultimately passed without action taken by the Governing Body, a presumption of rejection is preceived without reason. At our last meeting I wanted to state my reasons for rejection. However, the matter was deferred. With all due fairness to the successful bidder I have a public interest to protect in this community. After reviewing the bid package, and being familiar with the area which is mixed residential and commercial and industrial. This building located across Jackson, Adams and Downing Street and adjacent to Ferry Street where residents and pedestrians alike are heavily concentrated during the day and evening. The zoning in this area is mixed, with Second Business District, located across from a Third Business District adjoining a First Industrial Zone and a Second Industrial Zone. I have in the past submitted areas for up-grading of Zoning Districts so that new businesses intending to locate in particular areas would enhance rather than to degrade a particular area with a use that could be detrimental to the public interest of a particular community. I have observed a warehouse located at 140 Thomas Street and others nearby that have stored dangerous chemicals causing fear to a neighborhood for almost two years. That area has since been up-graded in zoning to avoid that situation from occurring again. My intent would be to take every public auction that is scheduled to appear from here on in and that has commercial or industrial properties for sale by the City, check the zoning district to see that it conforms with the best interest of the public. I am enclosing a map of this particular general area clearly indicating the mixed zoning use of this area. However, even this map does not reflect the many residences located in the First and Second Industrial District. This should be corrected. When these zoning changes are legal and complete, the Office of Real

Property should once again notify the public of the new up-grades in the community, and that person or persons purchasing said property or own property would have to adhere to our local building and zoning codes. The new ones. I ask the City to draft an ordinance addressing my previous concerns thereby protecting the public interest by a future law and at the same time addressing our antiquated zoning districts.

A motion to reject the resolution was made by Councilman Martinez, seconded by Councilman Carrino and declared adopted by President Grant by the following votes:

Deputy City Clerk Marasco read the following letter from Councilman Ronald Rice:

January 23, 1985

Dear Council Colleague;

It has been brought to my attention that the Bond Counsel contract will be voted on at a Special Meeting on Friday, January 25, 1985.

I respectfully request that the matter be deferred until the next regular Municipal Council Meeting on February 6, 1985.

I believe there is no urgent reason regarding this matter that would require a vote on Friday and I would personally like to be present to cast my vote as a Member of the Newark Municipal Council at a regular meeting.

There may be additional information pertinent to this subject that I'm in the process of ascertaining but I could not speak about it at the special session on Tuesday, January 22nd since my inquiries had not been completed at that time. If there was such urgency on this item, we could have voted on same two (2) weeks ago when it initially appeared on our agenda.

Once again, I'm hereby respectfully requesting that this matter be deferred until the regular session on February 6.

Very truly yours

Ronald L. Rice

February 6, 1985

Council to reconsider this legislation at its earliest opportunity. In the opinion submitted by Ms. Rosalind Lubetsky Bressler January 14, 1985, a case is made that the statutory provision does not confer upon the City Clerk the authority sought in Sections 1 and 2 of Ordinance 6Ph, S & FN.

I understand and concur that the statute requires each "municipality" to "establish" and "maintain" such a central registry, and to make it available for inspection. Furthermore, the duties of the City Clerk in this regard are consistent with the record-keeping functions assigned to his office by the Faulkner Act, N.J.S.A. 40:69A-58, and by several other provisions of State Law.

Sincerely,

Kenneth A. Gibson
Mayor

The City Clerk stated the question before the Council is "Shall the Municipal Council override the Mayor's veto of 'An ordinance amending and supplementing the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented. (The City Clerk to have an appraisal performed prior to the authorization to sell any parcel of City-owned property; Sale of vacant City-owned real property by the City Clerk)?'"

The City Clerk read the following veto message from Mayor Gibson:

KENNETH A. GIBSON
MAYOR
NEWARK, NEW JERSEY
07102

February 6, 1985

883

January 21, 1985

Mr. Frank D'Ascensio
City Clerk - City of Newark
City Hall - 920 Broad Street
Newark, New Jersey 07102

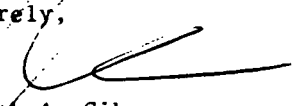

Dear Mr. D'Ascensio:

I am rejecting Ordinance 6S & FO 011685 and urge the Municipal Council to reconsider the legislation. The rejection of this legislation is based on similar grounds of 6Ph, S & FN.

Previous legislation provided a mechanism for the governing body to sell any lands or buildings or any right or interest therein not needed for public use (N.J.S.A. 40:60-26). In July 1971, N.J.S.A. 40:60-26 was repealed by N.J.S.A. 40A:12-13.

Under N.J.S.A. 40A:12-13, it is the "Municipality" rather than the "governing body" which may sell real property. The selling of real property, an administrative function, is under the administrative prerogatives of the Mayor.

Sincerely,

Kenneth A. Gibson
Mayor

February 20, 1985

MS. ARLENE HENRY, 603 ELIZABETH AVENUE, NEWARK, NEW JERSEY, addressed the Council with respect to the proposed 6% tax on charges for the use or occupation of rooms in hotels.

Councilman Martinez explained that this was an emergency measure to start generating revenues from the Marriott Hotel.

Councilman Carrino stated the tax would give people the wrong impression of what the City was doing. He felt this was a "Catch 22" situation.

Councilman James said the tax would be used to off-set the amount of monies that would be coming into Newark.

Councilman Tucker noted this was directly related to the Marriott Hotel development on the land that was tax exempt from the Port Authority at the airport. He said the purpose of this room tax was to have the project create revenues for the City without using property tax.

No one else appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Martinez, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

Not Voting: Councilman Carrino.

President Grant: The yeses are eight, the noes are none and one not voting. This ordinance having been read on two separate days and having achieved the vote required by the statute, is declared adopted. The City Clerk is directed to deliver same to the Mayor for his approval or disapproval.

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY:

(c) The Office of Real Property shall submit an executed copy of each installment payment plan to the Office of the City Clerk. The Business Administrator shall file an annual report with the Municipal Council indentifying all monies received pursuant to installment payment plans.

Section 2. All prior ordinances or parts thereof inconsistent herewith are hereby repealed.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MS. ARLENE HENRY, 603 ELIZABETH AVENUE, NEWARK, NEW JERSEY:

The above speakers expressed their opposition to the ordinance providing installment payment plans to satisfy delinquent rents and use and occupation charges.

No one else appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Tucker, seconded by Councilman James and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

ORDINANCES ON SECOND READING AND FINAL PASSAGE.

President Grant called for ordinances on second reading and final passage.

6-S & F-t.

The City Clerk read Ordinance amending and supplementing the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented. (The City Clerk to have an appraisal performed prior to the authorization to sell any parcel of City-owned property; Sale of vacant City-owned real property by the City Clerk)
(Copy of ordinance submitted to each Member of the Council)
(Ordinance rejected by the Mayor January 22, 1985)

The City Clerk stated the question before the Council is "Shall the Municipal Council override the Mayor's veto of 'An ordinance amending and supplementing the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, (The City Clerk to have an appraisal performed prior to the authorization to sell any parcel of City-owned property; Sale of vacant City-owned real property by the City Clerk)?'"

The City Clerk read the following veto message from Mayor Gibson:

KENNETH A. GIBSON
MAYOR
NEWARK, NEW JERSEY
07102

January 21, 1985

Mr. Frank D'Ascensio
City Clerk - City of Newark
City Hall - 920 Broad Street
Newark, New Jersey 07102

February 20, 1985

941

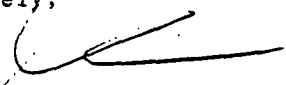

Dear Mr. D'Ascensio:

I am rejecting Ordinance 6S & FO 011685 and urge the Municipal Council to reconsider the legislation. The rejection of this legislation is based on similar grounds of 6Ph, S & FN.

Previous legislation provided a mechanism for the governing body to sell any lands or buildings or any right or interest therein not needed for public use (N.J.S.A. 40:60-26). In July 1971, N.J.S.A. 40:60-26 was repealed by N.J.S.A. 40A:12-13.

Under N.J.S.A. 40A:12-13, it is the "Municipality" rather than the "governing body" which may sell real property. The selling of real property, an administrative function, is under the administrative prerogatives of the Mayor.

Sincerely,

Kenneth A. Gibson
Mayor

The City Clerk read the following letter from Mayor's Office Chief of Staff Zinnerford Smith:

KENNETH A. GIBSON
MAYOR
NEWARK, NEW JERSEY
07102

February 6, 1985

Mr. Frank D'Ascensio
City Clerk
City of Newark
City Hall
920 Broad Street
Newark, New Jersey 07102

Dear Mr. D'Ascensio:

With reference to the Mayor's January 21, 1985, letter rejecting Ordinance 6S&FN011685, we would like to apprise you of the progress we have made with the maker of the Ordinance. Most notably, the controversy was with a portion of the Ordinance and not the entire ordinance.

As mentioned in the letter, the Mayor concurred that the statute requires each municipality to "establish" and "maintain" such a central registry, and to make it available for inspection. Furthermore, the Mayor acknowledged that the duties of the City Clerk in this regard are consistent with the record-keeping functions assigned to his office by the Faulkner Act.

February 20, 1985

We feel, therefore, that sufficient clarification has been reached for the Mayor to reconsider the advisability of his January 21 rejection letter.

Sincerely,

Zimmerford Smith
Chief of Staff

(To require certificate of occupancy prior to issuance of any license)?'"

The Deputy City Clerk read the following veto message from Mayor Gibson:

KENNETH A. GIBSON
 MAYOR
 NEWARK, NEW JERSEY
 07102

March 15, 1985

Mr. Robert Marasco
 Deputy City Clerk
 City of Newark
 City Hall - 920 Broad St.
 Newark, New Jersey 07102

Dear Mr. Marasco:

I am vetoing Ordinance 6PHS&FI(030685).

I am in agreement with the Council on the basic intent of the ordinance which is to insure that facilities are properly licensed. However, Ordinance 6PHS&FI(030685) goes beyond the basic intent by creating a provision which makes it unenforceable due to sheer manpower demands. The provision "... and a new certificate of occupancy must be obtained prior to each issuance or renewal."

I would like the Council to consider approving my veto and rewrite the ordinance deleting the provision of controversy.

Sincerely,

Kenneth A. Gibson
 Mayor

KAG:ZS:ba

March 20, 1985

Council Members discussed the Mayor's veto message, and some said they would welcome the submission of alternative legislation that would meet both the Council's intent and the Mayor's concerns. The Council Members said that since no other legislation was before them, they would vote for this measure and invite the Mayor to submit a further modification that would be acceptable to him. Since the Mayor indicated that the ordinance in its new form would be "unenforceable due to sheer manpower demands", the Council would like to receive specific information on the number of arcades that are presently licensed, and the number of annual inspections that would have to be conducted under the new amendment. If the Mayor wishes Council to consider an alternative amendment, it should be submitted prior to the next regular meeting on April 3, 1985.

A motion to override the Mayor's veto of this ordinance was made by Councilman Rice, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY:

SECTION 1. Title 15, Chapter 9B, Section 2, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, be and the same is hereby amended and supplemented by inserting definitions of "Equity" and "Fair rate of return", and amending definitions of "Exemptions", "Notice" and "Owner-occupied":

15:9B-2. Definitions.

Equity as used herein means the actual investment in cash by the landlord in the purchase price of the property, as well as those payments that he has made to any lender that reduce the lender's claim against the property.

Exemptions means dwellings to which this chapter shall not apply. Exempt dwellings include all public housing; owner-occupied one, two, three or four-family housing space units; any motel or hotel space rented on a day-to-day basis to transients; and any dwelling, building or structure, or portion thereof, rented for commercial use.

Fair rate of return means a return of at least eleven and one-half (11.5) per cent on the landlord's investment in the property, which investment shall be considered herein as the landlord's equity.

Notice means written notice to a tenant or landlord which is mailed to the tenant's residence or the landlord's residence or offices by regular mail, of any proceedings or determinations by the board, unless another method of notice is specified in this ordinance.

Owner-occupied means any dwelling of four units or less in at least one unit of which the owner resides.

SECTION 2. Title 15, Chapter 9B, Section 5, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, be and the same is hereby amended and supplemented to read in its entirety as follows:

15:9B-5. Tax surcharge.

A landlord may seek a tax surcharge from a tenant because of an increase in municipal property taxes. The tax surcharge shall not exceed that amount authorized by the following provision: The landlord shall divide one-twelfth of the annual increase in the present property tax over the property tax of the previous year by the total monthly rent roll, and that product shall be multiplied by the monthly rent paid by each tenant to establish the amount of surcharge that each tenant shall be required to pay. The tenant shall not be liable for a tax surcharge exceeding the tenant's percentage of the entire rent roll for the dwelling.

April 3, 1985

Any landlord seeking a surcharge shall petition the board for approval and shall give notice to the tenant and the board, at least 30 days prior to the increase sought, of the calculations involved in computing the tax surcharge including the present property tax for the dwelling; the property tax for the dwelling for the previous year; total rent rolls of all units, occupied or unoccupied in the dwelling; the percentage of the increase over the total rent roll; the rent of the tenant; and the percentage of his present rent compared to the total rent roll.

The tax surcharge each tenant is liable for shall be paid in equal monthly payments only after the landlord gives the tenant one month prior notice of the increase as required by statute.

SECTION 3. Title 15, Chapter 9B, Section 7, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, be and the same is hereby amended and supplemented to read in its entirety as follows:

15:9B-7. Capital improvements.

In addition to the percentage of rental increase and tax surcharge herein provided for, the landlord may seek additional rent for capital improvements made by him in the dwelling or attributable to the dwelling. The landlord shall compute the cost of the improvement per year of useful life by dividing the cost of the completed capital improvements by the number of years of useful life of the improvement as claimed by the landlord for income tax depreciation purposes. The amount of the monthly increase which a landlord may charge shall be prorated among all tenants benefiting from said improvements by dividing one-twelfth of the annual cost of the capital improvement by the total monthly rent roll of the units affected by the improvement in the dwelling occupied or unoccupied, and that product shall be multiplied by the monthly rent paid by each tenant to establish the amount of capital improvement increase that each tenant shall be required to pay.

No tenant shall be liable for a capital improvement increase if he receives no benefit from the improvement nor, if he benefits, shall he be liable for an increase exceeding the percentage of rent paid by him as calculated above, and all such rent increases shall be charged for no period greater than the depreciation period of said improvements. The landlord shall notify the board and tenants at least 60 days before the effective date of the increase. The notice to the board shall, on forms provided by the board, include the amount of increase, a description of the improvement, and the figures used to compute the increase. The board or a tenant may request a hearing within 30 days of receipt of notice from the landlord.

After approval by the board of a capital improvement surcharge, the landlord shall give to each tenant one month prior notice of the effective date of the capital improvement surcharge as required by statute.

SECTION 4. Title 15, Chapter 9B, Section 8, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, be and the same is hereby amended and supplemented to read in its entirety as follows:

April 3, 1985

15:9B-8. Landlord hardships.

In the event a landlord claims that he can not receive a fair return on his investment as defined in this ordinance, he may apply to the board for a hardship rent increase.

The procedure outlined in Section 15:9B-12 shall be followed. Within thirty (30) days after a hardship appeal has been filed, supported by all the information which the board may require for a determination, the board may request that the property be inspected by the Division of Inspections for code violations. The inspection reports shall be made and filed with the board within thirty (30) days thereafter. In the event that the inspection reveals code violations, the board may deny the increase or conditionally grant the increase subject to the landlord abating the violations within a reasonable period of time. However, in no event shall this period of time exceed 90 days.

In the event that such abatement has not taken place within the aforesaid period prescribed by the board, the board shall revoke any such conditional increase, and the landlord shall be required to restore to the affected tenants all of the additional monies collected pursuant to the increase. The restoration of monies shall be in the form of either a direct refund of all monies collected or a deduction from the next month's rent.

As used in this section, code violations shall mean any violations of the existing building, fire, plumbing, electrical or housing codes of the City of Newark then in effect. Violations which the board may rely in implementing this section shall be only those violations which were found to have been existing at the time of the original inspection as requested by the board.

The landlord shall submit proof of expenses for maintenance, repairs and financing expenditures as well as legal, accounting and vacancy expenses to substantiate any hardship increase application and such proofs shall be supported by affidavits that the expenses are complete, reasonable and necessary. Amounts allowed for vacancies and for management costs shall be fully documented, and in no event shall allowable expenses in either category exceed 5 per cent of the landlord's gross income. This affidavit shall also describe any business, family or social relationship between the parties financing the purchase of the building and the landlord. The board shall consider said proofs and expenses for a period not to exceed 16 months but not less than 12 months prior to the date of the landlord's application.

Whenever a relationship other than a business relationship is found to exist between the parties financing the purchase of the building and the landlord, or for other good cause, the board may require that the value of the property be appraised by an appraiser to be approved by the board. The cost of appraisal shall be included as a separate cost in the application fee and paid for by the applicant when so required by the board at the rent control hearing.

Any increase awarded to the landlord pursuant to this section by the board shall be apportioned among the tenants in the following manner: The monthly increase shall be divided by the total monthly rent roll and that product shall be multiplied by the monthly rent paid by each tenant to establish the amount of increase that each tenant shall be required to pay.

SECTION 5. Title 15, Chapter 9B, Section 10, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, be and the same is hereby amended and supplemented to read in its entirety as follows:

April 3, 1985

15:9B-10. Powers of the Rent Control Board.

The rent control board shall be responsible for carrying out the provisions of this chapter, and may request the hiring of such personnel as are needed, shall promulgate such policies, rules and regulations as will further the provisions of this chapter, and shall recommend to the city for adoption such ordinances and bylaws as may be necessary to carry out the purposes of this chapter.

The powers of the board shall include but not be limited to the following:

(a) to grant a rental increase, decrease, or surcharge under the provisions of this chapter;

(b) to impose a monetary penalty not to exceed \$500.00 for a violation of any provision of this chapter, after notice, and an opportunity for hearing has been provided to the parties before the Rent Control Board;

(c) to fix at its discretion the effective date of any approved rental increase, decrease or surcharge to be at any reasonable time prior to or after the determination of the board;

(d) to hold public hearings (see 15:9B-12);

(e) to obtain, keep and maintain all available records, and all other data and information necessary to the enforcement and application of this chapter;

(f) to promulgate rules and regulations governing all proceedings authorized by this chapter;

(g) to supply information and assistance to landlords and tenants to help them comply with the provisions of this chapter;

(h) to deny, at its discretion, a rent increase if the landlord fails to register all dwellings with the rent control board (see 15:9B-9); and

(i) to appoint an administrator of the rent control board, for a term to coincide with the administration, at an annual salary as fixed by ordinance and to be paid as other municipal salaries are paid.

(1) The administrator or the administrator's delegate shall review all petitions submitted to the board.

(2) The administrator may meet with petitioners in order to reconcile any discrepancy in the petition.

(3) The administrator shall attach to the petition a recommendation to be considered by the board. Said recommendations shall be based on the administrator's investigations of the petition.

(4) For good cause, the administrator may grant an adjournment of a matter pending before the board.

(5) The administrator shall be in charge of the office of the rent control board and shall carry out such investigations and shall maintain such records as are necessary for the proper functioning of that office.

SECTION 6. Title 15, Chapter 9B, Section 16, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, be and the same is hereby amended and supplemented to read in its entirety as follows:

15:9B-16. Utilities surcharge.

Notwithstanding the language contained in 15:9B-8, where the landlord substantiates through credible proof to the rent control board administrator that increases in heating expenses and water expenses (not including sewer charges) for the 12 months immediately preceding his application are in excess of 10% of the heating expenses and water expenses for the prior 12 months, the administrator shall grant a utilities surcharge to the applying landlord.

However, the increase allowed shall not exceed 15% of the monthly rent roll of apartments which contain 30 or fewer units; and the increase allowed shall not exceed 5% of the monthly rent roll of apartments which contain more than 30 units but less than 201 units; and, the increase allowed shall not exceed 3% of the monthly rent roll of apartments which contain more than 200 units. The percentage increase allowed shall be a percentage of the monthly rent roll in the month in which the application is submitted.

When the application of the landlord and all documentation required by the administrator to make the determination have been submitted, the administrator shall notify the tenants of the application for utilities surcharge. The notice shall contain a copy of the application and shall be mailed to the affected tenants within 14 days of receipt of landlord's completed application. The landlord's completed application must include a certified statement from the fuel heating dealer for the building indicating the number of gallons delivered, cost per gallon and total cost, for the 12 months immediately preceding the application and for the previous 12 month period. It shall also include a statement describing the landlord's water bills from the division of water accounting in the city of Newark for the 24 months immediately preceding the date of application.

The decision of the administrator shall be rendered within 60 days of the filing of the completed application. Failure of the administrator to render a decision within 60 days shall result in the application being deemed granted.

If the requested increase is denied by the administrator, the landlord may lodge an appeal with the rent control board.

After the date of application, a finding that heat or water is not provided to the building in conformance with the applicable law shall be a basis for a denial of an increase pursuant to this section of the rent control ordinance.

If the required increase is granted, the landlord shall establish the surcharge to be paid by each tenant by dividing the monthly utilities surcharge granted, by the total rent roll, and then multiplying that product by the monthly rent paid by each tenant.

The landlord shall notify all tenants in writing of the approved increase. Such notice shall be served upon the tenants at least one month prior to the effective date of the increase. The landlord shall file with the administrator a copy of the notice that was served upon the tenants.

April 3, 1985

SECTION 7. Title 15, Chapter 9B, Section 17, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, be and the same is hereby amended and supplemented by adding a new subsection (d) as follows:

15:9B-17. New construction, vacant properties,
substantial rehabilitation, and sub-
stantially rehabilitated vacant units

(d) Substantially rehabilitated vacant apartment units.

Apartment units which become vacant and in which the landlord spends a total amount of money equal to or in excess of \$100, multiplied by the number of rooms in the apartment for the purpose of rehabilitating the apartment unit may have their rent increased up to a maximum of 25 per cent of the prior rent.

The application for an increase shall be supported by an affidavit describing the amount expended on each room of the apartment and stating that such expenses are reasonable, necessary and complete for the purpose of rehabilitating the apartment unit. Expenses described in this application shall not be used to support any other application before the board.

A notice of any application for a rent increase under this subsection shall be posted in a conspicuous place in the apartment building by the landlord on the date of the application.

The determination to grant such increase shall be made by the administrator unless an objection is filed by the prior tenant. If an objection is duly filed by the prior tenant, the application shall be set down for a hearing before the board.

In calculating the total amount spent on rehabilitation, credit may be given to the landlord for labor provided by him. The amounts credited for labor may equal up to 100 per cent of the actual cost of materials for painting and plastering, and up to 50 per cent of the cost of materials and equipment for all other types of rehabilitation work.

An inspection by the division of inspections in the Department of Health and Welfare of the City of Newark shall be completed prior to the grant of this application. Any code violations found to exist, including the absence or inadequacy of required smoke and fire alarm devices, shall be abated prior to the grant of the application.

The landlord may be granted only one increase under this subsection for the same apartment unit in any twelve-month period.

The above speakers addressed the Council with respect to more recreation for the children in the City. They felt by having more recreation the children would be kept off of the streets and this would benefit towards positive achievement. The speakers stressed the need for recreation for the adults and seniors also. They felt the rehabilitation of the Wilson Avenue Bath House would be a definite step towards assisting the people of the City.

Councilman Tucker explained that last year the 1984 Budget was increased by \$300,000. for recreation, only \$100,000. was spent on recreation. He said

April 10, 1985

that was a question for the Mayor to answer as to why only \$100,000. was spent for recreation. He explained that the Council did not cut the recreation funds this year or last year.

Councilman Martinez stated the same applied to the subject of the Wilson Avenue Bath House. He said over \$800,000. was appropriated for the renovation of the bath house and the Mayor has never done anything in terms of renovating it. He mentioned he did not know what the Mayor's intent was; he only knew that the Council's position was to keep placing more money into the budget.

No one else appearing, a motion to close the hearing on the approved budget, as advertised, was made by President Grant, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Martinez, Rice, Tucker, Villani, President Grant.

BOARD OF ADJUSTMENT APPEAL.

4-A-1. The City Clerk read In the Matter of Application of Murray and Lucille Gornitzky, owners, to permit in a 3rd Residence District construction of a one-story warehouse, and subject to site plan approval, if required; for premises 114-122 Pennington Street.

The Board of Adjustment at its regular meeting February 26, 1985, approved the application by a vote of 6 Ayes and one Nay.

An appeal in this matter was filed in the Office of the City Clerk on March 1, 1985, by Ms. Ella James, Mr. Manuel Antunes, Mr. Jaime Rivas.

The transcript in connection with this matter was received April 3, 1985 and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On April 4, 1985, The City Clerk notified the applicant, appellants and appellant's attorney that an appeal in this matter would be heard by the Municipal Council at their regular meeting April 17, 1985, at 8:00 P.M., in the Council Chamber, second floor, City Hall, Newark.

April 17, 1985

President Grant stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the Matter of Application of Murray and Lucille Gornitzky, owners, to permit in a 3rd Residence District construction of a one-story warehouse, and subject to site plan approval, if required; for premises 114-122 Pennington Street. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and place for the appeal to commence.

MR. IRVING SOLODZ, ATTORNEY, 17 ACADEMY STREET, NEWARK, NEW JERSEY, representing the objectors and appellants, requested the Council to consider their own ordinances with regard to the requirements as well as the state statute for special reason and allow the citizens in this city who reside in this third residence district to continue you doing so rather than to grant this variance. He asked the Council to reverse the decision of the Board of Adjustment.

MR. MAX GLASSMAN, ATTORNEY FOR THE APPLICANT, stated this additional building being proposed is an auxiliary building subservient to the existing building and it is for special reasons of safety for the people working there that the space is needed. He said if this application is approved they will proceed with the Planning Board and cooperate totally to make this particular warehouse fit into the present area and that it would be a benefit to the neighborhood rather than a detriment.

(Councilman Payne arrived 9:15 P.M.)

MS. ELLA JAMES, 108 PENNINGTON STREET, NEWARK, NEW JERSEY, asked the Council's indulgence in permitting this area to remain residential.

MR. MANUEL ANTUNES, 119-121 PENNINGTON STREET, NEWARK, NEW JERSEY, stated he had purchased this property several years ago and told it was a residential area. He noted they are now trying to increase industry and said he does not want a warehouse in front of his house.

Councilman Martinez read the following statement:

This is an appeal from a decision of the Board of Adjustment which involves premises at 114-122 Pennington Street, which is zoned as a Third Residence District. The lot is located on the northwest corner of Pennington Street and Herman Street. It is approximately 129 feet by 122 feet in size and on part of the lot is located a one story building. The area within a two hundred foot radius is composed of residential and industrial uses.

The applicants applied to the Board of Adjustment for a variance granting permission to construct a one-story warehouse in a Third Residence district. The variance is required because first, warehouses are not allowed in a Third Residence district and second, because the proposed warehouse will be constructed on a lot that has a portion of another building thereon.

April 17, 1985

On February 26, 1985, the Board of Adjustment determined that the variance could be granted without substantially impairing the intent and purpose of the zone plan and the zoning ordinances of the City of Newark. The variance was granted with the following conditions:

- (1) that the variance is subject to site plan approval by the Planning Board;
- (2) the warehouse be used for storing of raw materials in mixing cement and the finished products related to the raw materials;
- (3) that the area to be used for parking, the area around the building be blacktopped, and
- (4) shrubbery be added to try and beautify the area.

Thereafter an appeal was taken to this body from the Board of Adjustment's decision. The Municipal Council is empowered to hear appeals concerning variances granted pursuant to N.J.S.A. 40:55D-70(d). That section of the Municipal Land Use Law concerns variances granted in particular cases and for special reasons and to allow departure from the zoning ordinance.

The testimony before the Board indicates that the applicant has been located at 114-120 Pennington Street since 1956. The applicant is in the business of blending raw materials into cement. The business is a non-conforming use. The actual conversion of the raw-materials will not be performed in the one story warehouse, nor will the warehouse be used for any equipment or trucks. The sole purpose of the warehouse is for the storage of raw materials such as plaster, sand, cement, limestone and clay which is presently being stored in the office of the applicant. The warehouse will provide a facility for the storage of the products which will increase the safety of the employees. Testimony revealed that there will be no hazardous chemicals stored in the warehouse. The testimony further revealed that the area has a high percentage of commercial and or industrial properties within two hundred feet of the proposed site and that the site in question is a vacant lot which often has a problem with garbage accumulation.

Further findings on the record below revealed that the zoning designation of the area was changed to Third Residence in 1976 and that the development of residential properties in the area has been

April 17, 1985

virtually non-existent. The testimony of Ms. Ellen James indicates that she as well as the other objectors are concerned about increased vandalism in the area, depreciation of the value of their homes, the lack of increase in residential development and aesthetics of the area.

The Municipal Land Use Law requires that an applicant for a use variance show:

- (1) That there are special reasons for granting the variance; and
- (2) That the relief can be granted without substantial detriment to the public good and will not impair the intent and purpose of the zone plan and zoning ordinance.

The applicants have shown that special reasons exist for granting a variance since the proposed construction of a warehouse is to provide a storage facilities for an existing business operation which will increase the safety to employees and reduce the likelihood of hazardous conditions in the existing legally approved business operation of the applicants and would eliminate the unsightly vacant lot. Further, the grant of the variance will enable business to continue in Newark and keep Newark residents working; the testimony demonstrated that the granting of the variance will result in enhancement of the surrounding community because stifling of commercial development will blight the area since no residential development is taking place. The applicants also showed that the warehouse will not be a detriment to the community inasmuch as the area is composed of industrial and residential properties and has been so prior to the zoning change in 1976.

I, therefore, move that the Municipal Council adopt the facts I have recited and the reasoning I have set forth and affirm the decision of the Board of Adjustment granting the variance with the conditions as previously set forth, seconded by Councilman Payne and failed of adoption by the following votes:

Yes: Councilmen Carrino, Martinez, Payne, Villani.

No: Councilman James.

Not Voting: Councilmen Rice, Tucker, President Grant.

(b) The period of usefulness of said purpose or improvement within the limitation of the Local Bond Law, according to the reasonable life thereof computed from the date of the bonds authorized by this bond ordinance, is 40 years.

(c) The supplemental debt statement required by the Local Bond Law has been duly made and filed in the office of the City Clerk and a complete executed duplicate thereof has been filed in the office of the Director of the Division of Local Government Services in the Department of Community Affairs of the State of New Jersey, and such statement shows that the net debt of the City determined as provided in said Law is not increased by this bond ordinance and obligations authorized hereunder shall be a deduction from the gross debt of the City as defined in said Law pursuant to N.J.S.A. 40A:2-44(c) and the Bond Ordinance may be finally adopted notwithstanding the debt limitation imposed by N.J.S.A. 40A:2-6 pursuant to an exception thereto authorized by N.J.S.A. 40A:2-7(h) and the obligations authorized by this bond ordinance will be within all debt limitations prescribed by said Law.

(d) Amounts not exceeding \$5,600,000 in the aggregate for interest on said obligations, cost of issuing said obligations, engineering costs and other items of expense listed and permitted under section 40A:2-20 of the Local Bond Law may be and are hereby included as part of the costs of said improvements and as part of the foregoing estimate thereof.

(e) This bond ordinance authorizes obligations of the City solely for purposes described in paragraph (h) of section 40A:2-7 of said Law, and the obligations authorized by this bond ordinance are to be issued for purposes which are self-

liquidating within the meaning and limitations of section 40A:2-45 et seq. of said Law and are deductible, pursuant to paragraph (c) of section 40A:2-44 of said Law, from gross debt of the City.

(f) Pursuant to Section 40A:2-15 the City hereby covenants with the holders (hereinafter the "Bond Holders") of any obligations issued hereunder and so long as said obligations remain outstanding and unrefunded, to operate the System as a self-liquidating utility (as defined and set forth in the Local Bond Law) and this covenant shall be set forth on the face of any instrument representing obligations authorized hereunder.

(g) The City hereby further covenants with the Bond Holders that it shall fix rates, rentals and other charges for connection with and use of, and for the System, including any improvements thereto or extensions thereof, hereafter constructed or acquired whether pursuant to this debt authorization or others subsequent hereto in an amount sufficient to produce in each fiscal year of the System the revenues (when combined with other revenues of the System) necessary to provide for the payment of:

(1) all expenses of operation, maintenance and repair of the System; and

(2) 125 percent of all principal and interest payable during such fiscal year with respect to all bonds or other obligations authorized hereunder and with respect to obligations of the System currently issued and outstanding; and

(3) If a deficiency in the System's revenues, with respect to the covenants of this paragraph (g) nevertheless results, the City covenants with the Bond Holders that it will forthwith fix, revise and adjust its rates to the extent necessary to make up such deficiency.

(h) The City hereby further covenants with the Bond Holders as follows:

(2) (i) No money of the System shall be used appropriated or transferred from the System's budget or funds to any other fund or account of the City outside of the System's other accounts or funds, unless, after said appropriation or transfer is made and all operations, maintenance and repair expenses and all debt service of the System have been provided for, there remains in the Maintenance Reserve and Replacement Fund the lesser of \$10,000,000 or fifty percent (50%) of the annual operating budget of the most recently completed fiscal year of the System; (ii) it is intended that money in this fund will be used for major capital repairs and replacements of the System; (iii) nothing herein shall be construed, however, to prohibit the use, transfer or appropriation of money from the Maintenance Reserve and Replacement Fund to the payment of principal and interest, when due, on bonds or other obligations of the System and for the expenses of operations, maintenance and repair of the System or for any lawful use of said funds by and within the System; and (iv) notwithstanding anything set forth herein, the System shall be allowed to appropriate or otherwise transfer monies to other accounts or funds of the City for the purpose of reimbursing the City for payment of monies of the City withheld and paid by the State of New Jersey to holders of Qualified Bonds issued for System improvements and their proper purposes pursuant to the Qualified Bond Act.

Section 7. Notwithstanding this or any other provision of this ordinance, the interest of the holders of obligations issued pursuant to this or any other authorization of the City for the System shall remain superior to that of the State of New Jersey

or any of its agencies pursuant to any loan agreements which may be entered into with the City with respect to the revenues or other assets of the System, and any other parties having a lien on revenues of the System or any part thereof under current law.

Section 8. Notwithstanding any provision set forth herein, the existing rights of holders of obligations outstanding as of the date of final passage of this ordinance shall not be effected by anything set forth in this ordinance

Section 9. The full faith and credit of the City are hereby pledged to the punctual payment of the principal of and interest on said obligations authorized by this bond ordinance. Said obligations shall be direct, unlimited obligations of the City, and, unless paid from revenues of the System, the City shall be obligated to levy ad valorem taxes upon all the taxable property within the City for the payment of said obligations and interest thereon without limitation as to rate or amount.

Section 10. The capital budget of the City and the System is hereby amended to conform with the provisions of this ordinance to the extent of any inconsistency herewith. The Resolution in the form promulgated by the Local Finance Board showing full detail of the amended capital budget and capital program as approved by the Director, Division of Local Government Services, is on file with the City Clerk and is available there for public inspection.

KENNETH A. GIBSON
MAYOR
NEWARK, NEW JERSEY
07102

April 9, 1985

Mr. Frank D'Ascensio
City Clerk
City of Newark
Newark, New Jersey 07102

RE: 6S&FC

Dear Mr. D'Ascensio:

First let me take this opportunity to thank the committee for their untiring effort in revising the Newark Rent Control

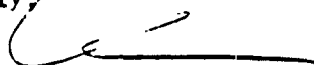

April 17, 1985

ordinance. I am certain, they as I, would like to see an ordinance which promotes harmony and adequate housing in Newark; however, I am vetoing the above-cited ordinance for several reasons. I am of the firm opinion that the ordinance will allow for an excessive increase, well above what many residents can afford at the current time. While I believe that landlords are entitled to enjoy a reasonable profit from their real estate investments, a 25% increase cannot be supported by this administration.

Moreover, residents of four-family owner-occupied buildings, a substantial portion of our renter-resident population, face the realistic prospect of rent increases in excess of the 25%. These residents, many of whom are on limited incomes, simply cannot afford to pay rent increases of that magnitude. Nor does the existing housing market in Newark and our surrounding towns offer adequate alternatives for these residents.

As an alternative, I would consider approving an ordinance which provides landlords with a fair rate of return for their investments, and one which also provides some protection for residents of four-family units.

Sincerely,

Kenneth A. Gibson
MAYOR

After a lengthy discussion, a motion to override the Mayor's veto was made by Councilman Carrino, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

No: Councilman James.

Not Voting: Councilman Rice.

(This resolution tabled March 18, 1985)

7-R-a (S)

Resolution authorizing Mayor to execute on behalf of City of Newark, Host Municipality Agreement with the County of Essex and the Port Authority of New York and New Jersey; (per attached agreement); agreement shall be for a period of twenty-five (25) years commencing as of date that all other conditions, agreements and approvals have been received by the parties; further, Director of Engineering to execute all associated documents related to facilitating the construction of the proposed Resource Recovery Facility in the City of Newark.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Branch, seconded by Councilman James.

Councilman Martinez stated this would not be in the best interest of the people of the East Ward. He mentioned he had just returned from Dade County, Florida - site of one of the world's largest resource recovery plants and the amounted to a "disgrace" to mankind. He added the property values were lowered, their water supply was damaged and refuse was dumped on the sides of the streets. He said that Newark could not even take care of their own sanitation problem, how could they enforce the safety regulations of the proposed plant?

Councilman James felt this facility incorporates the latest and most scientific modern and safety-conscious techniques in the world. He added that it will be the most advanced technological facility of its kind in the world. He also stated that it was not a Newark problem, but a world problem. He mentioned to the people in the audience that the Council had the authority to "shut down" the plant by "veto power" if it was found to be hazardous.

Councilman Carrino said his decision was the most difficult one he has had to make in his ten years on the Council. He said he had to vote for what was best for the City of Newark with an eye toward the future.

Councilman Payne indicated he had just returned from a weekend visit to a similar plant in New York. He felt that after reviewing all the information, he favored the plant. His concern was for the health of the community.

April 22, 1985

Councilman Tucker believed this was not the best plan, but the only plan for the garbage disposal problem.

Councilman Branch said he too visited a plant similar to the one proposed to be built in the Ironbound and found it to be safe and sound. He said if the plant was not constructed, then the people in the Central Ward would be faced with a garbage crisis.

Councilwoman Villani said she was strongly opposed to any incinerator being built where residents lived. She added as long as she had any doubt about the plant, she would not vote for it. She felt any incinerator would present a threat to the safety and health of the residents. She said the people who lived in the Ironbound suffered enough, especially with the levels of dioxin in the area and toxic explosions that have happened in the past.

Councilman Rice noted his vote would indicate the uncertainty of the resource recovery plant. He felt he did not have the proper knowledge to cast a vote. He stated there were many environmental concerns that were not addressed.

President Grant affirmed that "leadership demanded courage, and courage was part of decision making." He said this was an awesome responsibility on every Member of the Council. He added that this legislation meets with the State's mandate.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Payne, Tucker, President Grant.

No: Councilmen Martinez, Villani.

Not Voting: Councilman Rice.

RE: Zoning Appeal
114-122 Pennington Street

In response to your request for an opinion as to the effect of the failure of adoption of a motion to affirm the decision of the Board of Adjustment granting a variance for the above premises, please be advised as follows:

The Municipal Land Use Law provides that "[t]he affirmative vote of a majority of the full authorized membership of the governing body shall be necessary to reverse, remand, or affirm with or without conditions any final actions of the board of adjustment." N.J.S.A. 40:55D-17(e). The failure of the motion to affirm to receive five affirmative votes resulted in the Municipal Council not having taken action on the matter. Like any other agenda item which has not been disposed by action of the Council, the zoning appeal should appear on the agenda of the next regularly scheduled meeting.

The Council has 95 days from the date of publication of the notice of the Board's decision to conclude a review of the record below and render a decision. Since the notice was published on March 2, 1985, the 95 period within which the Council may act extends through June 5, 1985. If no action is taken by that time the decision of the Board is automatically affirmed. N.J.S.A. 40:55D-17(c).

In summary, no decision has been made by the Council concerning the appeal from a decision of the Board to grant a variance. The Council may vote on the subject at any meeting prior to the 95 day expiration period. The members of the Council may, if they choose, hear additional argument of counsel or they may consider argument to be closed. In any event, no member may vote on the matter who has not heard oral argument or read the transcript of same. Finally, if the Council fails to take any further action on the appeal concerning 114-122 Pennington Street prior to or at the June 5, 1985 meeting, the decision of the Board to grant the variance will be deemed affirmed.

RLB:pg

On April 24, 1985 the City Clerk notified the applicant, the applicant's attorney, appellants and appellant's attorney that the appeal was heard on April 17, 1985 but was not disposed of and this matter was scheduled to be considered at the May 1, 1985 meeting of the Municipal Council at 1:00 P.M., in the Council Chamber, second floor, City Hall, Newark.

A verbatim transcript of the proceedings before the Municipal Council in connection with this application was submitted to Councilman George Branch who was not in attendance at the April 17, 1985 meeting.

May 1, 1985

President Grant stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the Matter of Application of Murray and Lucille Gornitzky, owners, to permit in a 3rd Residence District construction of a one-story warehouse, and subject to site plan approval, if required; for premises 114-122 Pennington Street. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and place for the appeal to commence.

MR. IRVING SOLODZ, ATTORNEY, 17 ACADEMY STREET, NEWARK, NEW JERSEY, representing the appellants, requested the Council to reverse the decision of the Board of Adjustment.

(Councilman Carrino arrived 1:35 P. M.)

MR. MAX GLASSMAN, 225 MILLBURN AVENUE, MILLBURN, representing the applicants, urged the Council to affirm the decision of the Board of Adjustment.

Councilman Martinez read the following statement:

"This is an appeal from a decision of the Board of Adjustment which involves premises at 114-122 Pennington Street, which is zoned as a Third Residence District. The lot is located on the northwest corner of Pennington Street and Herman Street. It is approximately 129 feet by 122 feet in size and on part of the lot is located a one story building. The area within a two hundred foot radius is composed of residential and industrial uses.

The applicants applied to the Board of Adjustment for a variance granting permission to construct a one-story warehouse in a Third Residence district. The variance is required because first, warehouses are not allowed in a Third Residence district and second, because the proposed warehouse will be constructed on a lot that has a portion of another building thereon.

On February 26, 1985, the Board of Adjustment determined that the variance could be granted without substantially impairing the intent and purpose of the zone plan and the zoning ordinances of the City of Newark. The variance was granted with the following conditions:

- (1) that the variance is subject to site plan approval by the Planning Board;
- (2) the warehouse be used for storing of raw materials in mixing cement and the finished products related to the raw materials;

May 1, 1985

- (3) that the area to be used for parking, the area around the building be blacktopped, and
- (4) shrubbery be added to try and beautify the area.

Thereafter an appeal was taken to this body from the Board of Adjustment's decision. The Municipal Council is empowered to hear appeals concerning variances granted pursuant to N.J.S.A. 40:55D-70(d). That section of the Municipal Land Use Law concerns variances granted in particular cases and for special reasons and to allow departure from the zoning ordinance.

The testimony before the Board indicates that the applicant has been located at 114-120 Pennington Street since 1956. The applicant is in the business of blending raw materials into cement. The business is a non-conforming use. The actual conversion of the raw-materials will not be performed in the one story warehouse, nor will the warehouse be used for any equipment or trucks. The sole purpose of the warehouse is for the storage of raw materials such as plaster, sand, cement, limestone and clay which is presently being stored in the office of the applicant. The warehouse will provide a facility for the storage of the products which will increase the safety of the employees. Testimony revealed that there will be no hazardous chemicals stored in the warehouse. The testimony further revealed that the area has a high percentage of commercial and or industrial properties within two hundred feet of the proposed site and that the site in question is a vacant lot which often has a problem with garbage accumulation.

Further findings on the record below revealed that the zoning designation of the area was changed to Third Residence in 1976 and that the development of residential properties in the area has been virtually non-existent. The testimony of Ms. Ellen James indicates that she as well as the other objectors are concerned about increased vandalism in the area, depreciation of the value of their homes, the lack of increase in residential development and aesthetics of the area.

The Municipal Land Use Law requires that an applicant for a use

May 1, 1985

variance show:

- (1) That there are special reasons for granting the variance; and
- (2) That the relief can be granted without substantial detriment to the public good and will not impair the intent and purpose of the zone plan and zoning ordinance.

The applicants have shown that special reasons exist for granting a variance since the proposed construction of a warehouse is to provide a storage facilities for an existing business operation which will increase the safety to employees and reduce the likelihood of hazardous conditions in the existing legally approved business operation of the applicants and would eliminate the unsightly vacant lot. Further, the grant of the variance will enable business to continue in Newark and keep Newark residents working; the testimony demonstrated that the granting of the variance will result in enhancement of the surrounding community because stifling of commercial development will blight the area since no residential development is taking place. The applicants also showed that the warehouse will not be a detriment to the community inasmuch as the area is composed of industrial and residential properties and has been so prior to the zoning change in 1976.

I, therefore, move that the Municipal Council adopt the facts I have recited and the reasoning I have set forth and affirm the decision of the Board of Adjustment granting the variance with the conditions

as previously set forth," seconded by Councilman Carrino and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, Martinez, Villani, President Grant.
